

CG-D Countersink Gauge

Equipped with zeroization base

Measuring

CG-D Countersink Gauge is a digital gauge for measuring countersink depth of can and end. For fast and easy measurement, the zeroization base is equipped.

In order to avoid the manual recording error, the gauge can be connected to "SPC" system or AT2E "SeamCheck" software with DTB-1 Data Transporting Box and cable. So that, the data can be transferred to "SPC" system or "SeamCheck" software through DTB-1 and cable.

Technical specifications:

Measuring range	: 0-12 mm
Resolution	: 0.01 mm
Accuracy	: ± 0.01 mm
Sample range	: 3-pcs, 2-pcs can & ends
Overall size	: 147(L) x 81(W) x 153(H) mm
Net weight	: 1 kg

Optional model CG-A with analog indicator:
