Moisture Predictor – Moisture measuring device

For quick and non-destructive **moisture determination** of **paper, paperboard and pulp in stacks through packaging** with **measuring depth of 20 mm**

- Quickly and highly accurate measurement using a non-destructive method
- Automatic temperature compensation
- Simple handling of moisture tester
- Small, handy, applicable everywhere
- Without sample preparation
- Automatic data logger

Technical data

Measuring range:	1 % - 15 % moisture, depending on type
Display resolution:	0.1 % water content
Measuring depth:	20 mm
Temperature paper:	0°C to +50°C
Temperature compensation:	automatic
Temperature specification:	°C and °F
Menu languages:	English, German, French, Italian, Spanish, Russian, Portuguese, Czech and Polish
Storage of values:	approx. 10,000 measurement values with description
Weight and dimensions:	265 g (incl. batteries), 147 mm x 75 mm x 30 mm
Scope of delivery:	device with rubber protection in case with test plate, certificate and batteries
Optional accessories:	interface to PC, portable printer; customer calibration for special products
