

ZB-TQ1000 Paper air permeability tester

◆ Standards

The instrument comply with QB/T1667 --Paper porosity method, used to test paper permeability .

Application

Many kinds of paper like cement sack paper, sack kraft paper, cable paper, copy paper and industrial filter paper will need to be test air permeability. This instrument is designed and manufactured to test the above kinds of paper, it's suitable for paper porosity in 1×10^{-2} -- $1 \times 10^2 \mu m/(Pa \cdot S)$. not suitable for large roughness paper.
